

Galen Manning has turned EMR and claims data into actionable insights for 17 years at INTEGRIS Health in many value-based models. Under his leadership, 3 of 4 hospitals achieved the 99th percentile best performance in readmissions while also earning \$1.2M in the BPCI model. He has a Master of Science degree, PMP, and CHDA certifications. Currently, he leads analytics for nine Clinical Programs.

Galen's passion lies in leveraging technology to strengthen human connections, exemplified by his recent book, "Nadene's Journey." The biography chronicles his grandmother's life and impact as a special education teacher in rural Oklahoma. The book can be found on [Amazon.com](https://www.amazon.com) or [GalenManning.com](https://www.GalenManning.com).
